Election/Restriction

1. A telephone call was made to Edward Kmet on 17 September 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 28 and 46 - 73, drawn to Figures 1 – 16d, classified in class 347, subclass 15.
 - II. Claims 29 - 45, drawn to Figures 17 and 18, classified in class 358, subclasses 1.6 and 1.8.
3. There is no generic claim.
4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as media motor feed control not based on white line data. See MPEP § 806.05(d).
5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
